

ArchitectsPlus

Project

**BMW/Mini, Pre-Owned
Sales & Service Center**

Location

Cincinnati, Ohio

Owner

The BMW Store

Project Cost

\$850,000

Project Description

The BMW Store contacted ArchitectsPlus with an interest in developing a new service building, based on the concept that we had implemented for Mercedes-Benz. This BMW dealership occupies a heavily-sloping, 18-acre site that required a set of retaining walls to allow access. Due to the topography and existing buildings on the site, a series of site evaluation studies were conducted to develop options for placement of this new 7,500 SF facility.
