Project

DayAir Credit Union Branch

Location

Centerville, OH

Owner

DayAir Credit Union

Project Cost

\$1,200,000

Project Description

This new 4,000 SF credit union branch contains a community room incorporated into the lobby area as part of this non-traditional banking environment. Without a “teller line”, the customer service representatives conduct business with members at a pod where both can view the monitor. A café for beverages and internet connection is adjacent to the retail area. Digital merchandising is utilized to greet customers and provide them with current information on services, products, and rates in this open plan environment.
