

ArchitectsPlus

Project

Mercedes-Benz of Cincinnati

Location

Cincinnati, Ohio

Client

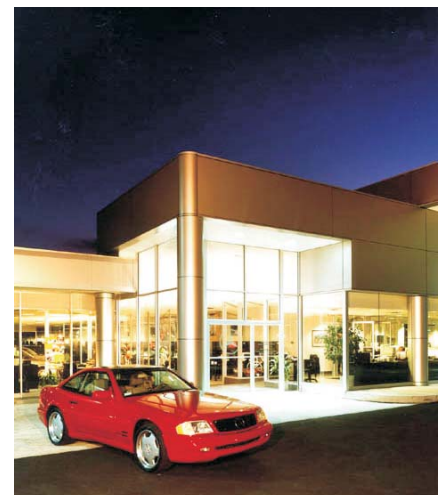

Mercedes-Benz of Cincinnati

Project Cost

\$600,000

Project Description

ArchitectsPlus provided planning studies, design, and documents for improvements and new construction projects. These included renovation of the business offices and showroom, the creation of a new entry, removal of two bearing walls and the addition of a new retail area. ArchitectsPlus also assisted the dealership with a change of signage, a second phase of expansion for a new vehicle preparation building, including a vehicular bridge. For a third phase, ArchitectsPlus developed a new showroom addition to the existing dealership. The two-level showroom encompasses 6,900 SF and includes a 3,000 SF mezzanine. The design features a large glass area and Alucobond accents. The project completed this site and provides display of 12 cars, new sales offices, a lounge, retail space, and collector car display.
